

PU WATER-BASED VARNISH – EXTRA MATTE

APPEARANCE:

Extra matte finish

COMPOSITION:

Polyurethane-acrylic water-based coating with additives

DESCRIPTION:

PU water-based extra matte varnish is a high-performance protective coating for wood and similar surfaces. It provides a durable, non-reflective finish while preserving the natural look of the material.

Suitable for interior use and surfaces exposed to higher wear. It offers excellent resistance to abrasion, moisture, and household chemicals.

SURFACE PREPARATION:

The surface must be clean, dry, sanded, and free of dust, grease, and old coatings.

APPLICATION:

Apply with a brush, roller, or spray. Stir well before use. Dilute with water up to 10% if necessary.

Apply in 2–3 coats with appropriate drying time between layers.

DRYING TIME:

Touch dry: 1–3 hours

Fully dry: 8–12 hours depending on conditions

APPLICATION CONDITIONS:

Temperature: +5°C to +30°C

Relative humidity: max. 80%

Do not apply on cold or damp surfaces

Clean tools with water immediately after use.

STORAGE:

Store in original packaging in dry and ventilated areas between +5°C and +25°C. Protect from freezing.

ADVANTAGES:

- Extra matte elegant finish
- High durability
- Excellent abrasion resistance

- Water-based and environmentally friendly
- Low odor
- Easy application

CONSUMPTION:

Approx. 10–12 m² per liter per coat

DILUTION:

Up to 10% with water
