

TECHNICAL DATA SHEET

Appearance: Matte

Composition: Emulsion of vinyl acetate copolymer, fillers, titanium dioxide

Brookfield Viscosity: 14,000 CPS

Water Vapor Permeability: High

Alkali Resistance: Resistant

Dry Matter: 70%

Whiteness Index: 84 ± 2

PRIMAVERA

Primavera is a vapor-permeable interior wall paint, easy to apply, with good coverage, providing a pleasant aesthetic appearance and high whiteness.

Application Guidelines:

New surfaces:

Check for cracks or defects on walls and ceilings. If necessary, use wall filler and sand the surface. Apply the first coat of PRIMAVERA diluted with approx. 40% water. After 3–4 hours, apply a second coat diluted with max. 30% water.

Existing surfaces:

Remove air bubbles, flaking or peeling paint as much as possible and sand the surface. If filling is required, use an acrylic emulsion beforehand.

Application tools:

Brush, roller, spray gun

Consumption:

8–10 m²/L

Drying time:

1–1.5 hours surface dry / 10–12 hours through dry
